**RE: Return to Play Arena Spectator Requirements**

As we slowly return to play games in the months ahead, we must be cognizant of the fact that the circumstances that we are currently in will not permit business as usual. Across the city, the various rinks that our teams will play games out of, have different criteria for fan attendance. The number of fans allowed will also vary by location, with some not allowing any fans and some with an allowance of 100 spectators.

The accompanying **Spectator Plan Elite Hockey 2020** outlines the plan for spectator attendance at the games. The intent is that the Managers will facilitate the plan for each game. As indicated in the plan, teams must work together to ensure that the capacities in each facility are not exceeded.

It is incumbent upon everyone involved to make sure that we adhere to the rules put in place. Failure could see sanctions being placed on our activities by the governing bodies. This will be closely monitored and teams that do not follow the rules will unfortunately have their ability to have spectators at the games revoked. These rules have been put in place to make the environment as safe as possible for everyone involved.

Best Regards,
