

Schedule B

Rationale for 2022 Regulations Changes

There are no major changes being proposed, there are a number of minor changes to improve the readability and consistency of the document, they include the following:

- Updates made to align with Hockey Canada and Hockey Alberta Regulations
 - Previously we had a lot of copied wording that has changes in our Governing Bodies' regulations

- Consolidation - many changes made to consolidate various subpoints that are redundant or unnecessary
 - Many of these were added from year to year, but not organized optimally

- Reordering - many of our regulation sections needed to be reorganized for purposes of flow

- Regulations vs. Operational Documents - removed sections that are consistently communicated via operational documents
 - Ex. Playoff rules and Intro to Hockey guidelines
 - This will allow Operations Committee to be more flexible and make changes throughout the year
