

## **Registration For The 2020-2021 Season**

### **April 24 Update**

May is almost upon us and many thoughts are turning to planting those spring flowers. May also means that Hockey Calgary, along with your Association, is busy planning for the 2020-2021 season.

We know there is uncertainty about many things these days, but we remain optimistic that in the coming months our lives will begin to return to a new normal and our kids will be back in the rink come fall! We are working with all Associations to have a coordinated registration period to get everyone back in the game.

Registration for the 2020-2021 season will not open before July 1st this year for ALL Associations (including Elite). We'll provide more information as we determine the details and remember to check in on your Association website as well for up to date information. (to find your Association website [click here](#).) You can also contact [Pam Douglas](#) in the Hockey Calgary office with any registration questions you may have.

If you have family or friends that are new to hockey this season please share this information with them.

Until the next update, stay apart, stay healthy and remember - we will drop the puck again!
