SUBJECT: Coach Certification Requirements 2013/2014 Season

Attached you will find the updated matrix for Coach Certification Requirements for the upcoming season. These qualifications are in line with the updated Hockey Alberta guidelines.

Hockey Canada has changed the delivery model of some of the coaching courses to include an on-line component that **must** be completed prior to attending the balance of the course in person. As of today, the e-hockey site is up and running for on-line portion of the coaching certification courses denoted as HU Coach Stream or HU Safety.

For the upcoming season, Hockey Calgary will continue to use National Sports Academy as our primary source for coaching clinics. More details regarding dates and times will follow shortly.

A copy of the Certification Requirements will be posted on our website under the Development Tab. <https://www.hockeycalgary.ca/assets/file/Coach-Cert-Requirements-Sheet1.pdf>

***Respect In Sport** - All registered team officials must be certified in the Respect in Sport - Coach Edition (not to be confused with the Parent module). The old Hockey Canada Speak Out Abuse & Harrassment program certification is grandfathered and equivalent to Respect In Sport - Coach Edition

****Hockey Canada Safety Program** - One registered team official must be certified in the Hockey Canada Safety Program and MUST BE IN ATTENDANCE AT ALL GAMES. Hockey Canada Safety Program certification has not changed other than it is now an on-line course.

*****Coach Stream** - The old Intro To Coach and Coach Level certifications have been integrated this season into the new Coach Stream certification. Timbit teams must have two registered team officials certified in the old Intro to Coach or new Coach Stream. All head coaches of Novice and above teams (other than AA & AAA) must have completed the old "Coach Level" or new "Coach Stream"

******Checking Skills** - All head coaches of Pee Wee and above teams must have completed the Checking Skills certification. Checking Skills certification has not changed from previous years.

Deadline to complete your certification is November 15, 2013
