2020-21 Minor Hockey Participant Fees

Hockey Alberta has committed to providing our Members with information on Participant Fees, and other fee changes, for the upcoming season by the beginning of February each year. The goal is to provide our Members with time to incorporate any fee increases into their fee structure for the next season.

There will be an increase of \$2.00 for Minor, Accredited Schools, Intro to Hockey, Recreational, and Sledge participants for the 2020-21 season:

- **Minor Hockey:** U11 (formerly Atom), U13 (formerly Peewee), U15 (formerly Bantam), U16 (formerly Minor Midget) and U18 (formerly Midget) players will be assessed a Participant Fee totaling \$47.80 per person.
- **Intro to Hockey:** U7 (formerly Initiation) and U9 (formerly Novice) players will be assessed a Participant Fee totaling \$46.80.
- **Recreational:** Recreational / Pond players will be assessed a Participant Fee totaling \$46.80.
- **Sledge:** Sledge players will be assessed a Participant Fee totaling \$46.80.

A Participant Fee is charged for each registered Hockey Alberta participant and invoiced to member Minor Hockey Associations, Club Teams and other registered programs each season. The fee includes Hockey Canada Participant and Insurance fees. A full breakdown is available in the chart on page 2 of this Bulletin.

Hockey Alberta's allocation consists of amounts designated for the administration of Operations and Development activities, as well as Facility and Technology fees overseen by the Board of Directors. All funds are reported annually in Hockey Alberta's Audited Financial Statements. Hockey Alberta's Participant Fee remains in the bottom three when compared to those of the other 12 Branches in Canada.

Hockey Alberta will continue to work towards developing a multiple-year fee structure to better assist Members in their planning and budgeting processes. The current GST review by the Canada Revenue Agency – outlined at the 2019 Annual General Meeting – makes this goal not achievable until we receive a final decision and understand the impact on budget deliberations in future years.
