

Elite Hockey Registration Update

First time trying out for Elite? For those players born 2000-2007 that are planning to try out for Elite (quadrant) hockey for the first time, their Hockey Canada file will need to be shared with your resident Elite association in order to register with them. Please email the registrar of the Elite association where your player will try out with the following information:

- Player Name
- Player DOB
- Hockey Canada ID
- Community Hockey Association

Once the above information is received, the Elite Registrar can start the process to get shared access to your player's file. You will not be able to register with your Elite Association until this step is completed. Remember to register with both your Elite and Community Association. Note this is for first time Elite registrants only. If your player has tried out with your Elite association previously, no action is necessary from you.

Association Contacts

Until the next update, stay apart, stay healthy and remember - we will drop the puck again!
