Explanation of Column Headings:

Response Total number of surveys started for that association/total number of players in that association

Reconsider % of respondents that DO actively reconsider player involvement due to body checking

#1 Outcome Top response to the question "If the introduction of BC in minor hockey was delayed until after PeeWee, please choose all that apply" (multiple answers permitted)

#2 Outcome Second response to the question "If the introduction of BC in minor hockey was delayed until after PeeWee, please choose all that apply" (multiple answers permitted)

Note: Lost = important part of game would be lost, behind=players would fall behind other jurisdictions, fun=players would have more fun, Safer = game would be safer for players, Skills=players would be forced to develop other skills more fully

Change % of respondents who indicated some kind of identified change was supported in response to "What is your idea for handling BC in hockey?"

No Change % of respondents who indicated DO NOT change anything option in response to "What is your idea for handling BC in hockey?"

#1 Why involved Top choice selected in response to "Why is your player involved in hockey?" (multiple answers permitted)

Note: Fun = to have fun, Fit = Fitness/physical/skill/athletic development, Passion=hockey is his/her passion/love of game

Atom % of respondents who indicated their player currently plays at this level

PeeWee % of respondents who indicated their player currently plays at this level

Bantam % of respondents who indicated their player currently plays at this level

Midget % of respondents who indicated their player currently plays at this level
