

Recreational Hockey Calgary Registration Update
Transferring from Community to Rec Hockey this season?

For those players that are planning to switch from Community Stream to Rec Hockey (RHC) this season, your Hockey Canada file will need to be transferred to Recreational Hockey Calgary from your current Community Hockey Association. Please email the RHC registrar with the following information:

- Player Name
- Player DOB
- Hockey Canada ID
- Community Hockey Association

Once the above information is received, the RHC Registrar can start the process to get your player's file transferred. You will not be able to register with RHC until this step is completed.

RHC Registrar email: rechockeyregistrar@hockeycalgary.com

Until the next update, stay apart, stay healthy and remember - we will drop the puck again!
