

Schedule B

Rationale for 2024 Regulations Changes

There are no major changes being proposed, there are a number of minor changes to improve the readability and consistency of the document, they include the following:

- Spelling and Grammar updates
- Updates made to align with Hockey Canada and Hockey Alberta Regulations
 - Previously we had a lot of copied wording that has changed in our Governing Bodies' regulations as well as inconsistent terminology
 - Changes to Roster sizes and affiliation regulation
- Regulations vs. Operational Documents - removed sections that are consistently communicated via operational documents
 - Ex. Schedule Window (now in the the Tournament Policy) and the Game Reschedule (now a policy)
 - This will allow Operations Committee to be more flexible and make changes throughout the year
- Consolidation - many of our regulation sections (Community, Elite, Rec, Female) contained similar sections and wording. These sections were moved to 'All Streams'.
- Reordering
 - Reordered sections to allow information to be founded easily
