

## Schedule B

### Rationale for 2023 Regulations Changes

There are no major changes being proposed, there are a number of minor changes to improve the readability and consistency of the document, they include the following:

- Spelling and Grammar updates
- Removal of outdated sections
  - Previously there were sections that were outdated that were necessary before implementation of many technology updates.
- Updates made to align with Hockey Canada and Hockey Alberta Regulations
  - Previously we had a lot of copied wording that has changed in our Governing Bodies' regulations as well as inconsistent terminology
- Regulations vs. Operational Documents - removed sections that are consistently communicated via operational documents
  - Ex. Playing in Tournaments (now the Tournament Policy) and the Substitute Goalie Policy
  - This will allow Operations Committee to be more flexible and make changes throughout the year
- Reordering - many of our regulation sections needed to be reorganized for purposes of flow
- Categorization
  - Recategorized Suspensions section to allow information to be founded easily
- Hockey Calgary's Board completed a strategic plan with changes made to the Mission, Vision, Mandate, and Core Values
